Heating & Electrical Services

Autumn | Issue 003

Industry News

- ⚡ The cost of installation has never been lower!
- ⚡ Return on Investment - upto 12% per year
- ⚡ Act now before proposed government cuts

Currently, home owners are able to get a fantastic 8-12% return on their investment, and this income is guaranteed for 20 years! Furthermore this income is tax free and index-linked!

If your thinking about a Solar PV installation, don't delay as the reduction of the government incentive is imminent. Call us today on 01582 75 76 75 for a

no obligations quote. See below for a typical installation example with the associated costs and return figures. For more information visit us on the web - [google electro contractors Ltd](http://google.com/electrocontractors).

Solar PV Investment

Shown below is one of our proposed 4kW (16 x 250W Panel) systems with typical ROI:

Earnings from generating electricity	£626
Savings on electricity bills	£223
Total benefit per year	£849
Cost of installation	£7560
Return on investment	11.24%

Voltage Optimisation

We are now guaranteed 10% savings on our bills through the VO4Home voltage optimisation device installed in our office.

- Potential 12-16% savings on bills
- Prevents wear and tear on electrical devices
- Payback between 3-5 years

cost to supply & install:

From £575.00 (all inclusive)

The Off-Grid Solution - eKiss

Electro Contractors Ltd in partnership with Antaris Solar now offer a stand alone Solar solution for producing electricity in the developing world. The Antaris Solar eKiss Box is maintenance free and guarantees self sufficiency! The panels charge a set of batteries via the charge controller so that electricity can be used both during the day and night.

1- 2 kW systems **from £4212.77**

FREE DELIVERY TO THE UK

mini eKiss - Mobile Power!

The solar powered briefcase! - Suitable for charging handheld devices, the mini eKiss is ideal for small fans, battery chargers, and laptops. With a mini eKiss, you can charge 10 mobile phones at the same time! Drop in to the office to see and test a working demonstration unit.

£550.00 each
