

### Industry News

#### SOLAR PV

What was looking like doom and gloom for the solar industry may

have turned out to be a blessing in disguise. Plans to cut the feed in tariff were seen as a death blow to the industry from which it was unlikely to recover from. However, the drastic government changes has actually led to the industry taking positive steps to reduce the cost of solar panels and inverters, allowing customers to benefit from a fantastic 8-10% return on their investment. [Click here for more information on the feed in tariff](#)

#### Website Launched

Visit our long awaited website launch at [www.electrocontractors.co.uk](http://www.electrocontractors.co.uk). Find out about the services we offer, frequently asked questions, about us, and more...

In line with the current economic climate, you will notice our new business area including Solar (PV) Panel installations and Energy Saving Products & services.

#### MCS Accreditation

We are proud to announce our being listed as a qualified microgeneration installer as part of the Microgeneration Certification Scheme. Using MCS certified installers and products allows homeowners to benefit from government incentives such as the Feed in Tariff when installing energy generators, such as Solar PV. With the new solar panel technology, homeowners can potentially earn upto £750 and save £250 on their electricity bills per year!

#### Company Restructuring

In a move to streamline our activities, and make way for new areas of business, Electro Contractors Ltd will solely be offering electrical services along with renewable technologies (Solar PV) and a new range of energy saving products & services. Our sister company, the newly formed "electro contracts ltd", will provide all gas/heating and plumbing services. In order to reduce the impact on our clients/customers, all calls/emails will be logged as before.

#### Newest Recruits

To help us tackle the new and exciting challenges that lie ahead we have recruited new talent ... Imran Ghafoor joins us as a Business Development Manager - Imran has worked in IT, as well as the education and health sectors. He is a postgraduate of Bedfordshire University where he studied an MSc in Project Management.

#### Feedback from visitors

Electro Contractors Ltd appreciates feedback from its clients. Whether it's about the service you have received, what you think about our website, or any general suggestions you may have, feel free to contact us using our [contact form](#)
