Industry News

- ⚡ **In 2012 - Solar Panel Costs Slashed by 50%**
- ⚡ **Return on Investment - upto 12% per year**
- ⚡ **Act now before proposed cuts on 1st August**

Currently, home owners are able to get a fantastic 8-12% return on their investment, and this income is guaranteed for 25 years! Furthermore this income is tax free and index-linked!

If your thinking about a Solar PV installation, don't delay as the reduction of the government incentive is imminent. Call us today on 01582 75 76 75 for a

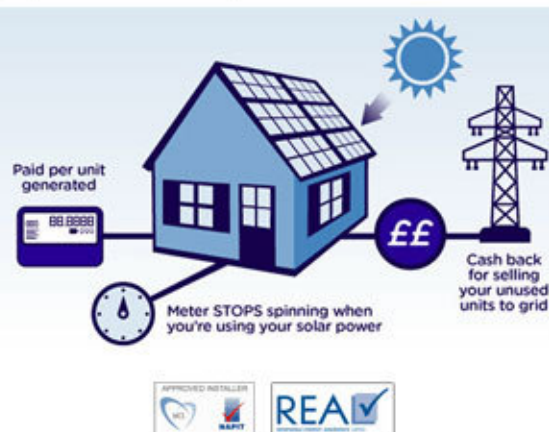

no obligations quote. See below for a typical installation example with the associated costs and return figures. For more information visit us on the web - [google electro contractors ltd.](http://google.com/electrocontractors)

Solar PV - Typical ROI

Shown below is one of our propped 4kW (16 x 250W Panel) systems:

Earnings from generating electricity	£774
Savings on electricity bills	£223
Total benefit per year	£997
Cost of installation	£8646
Return on investment	11.5%

Remember this is tax-free, index linked, and guaranteed for 25 Years! Act now before the proposed cuts take place!

- ⚡ Office Refurbishment

Reduce your Bills - Voltage Optimisation

Voltage optimisation can give immediate electricity savings for homes and businesses. So, what are the benefits?:

- Electricity Savings upto 16%
- Guaranteed minimum savings of 10%
- Cost to supply and install - £575
- Payback time - 3 years

Specifically, we now supply and install the VO4Home voltage optimisation device. For more information on the product, visit www.vo4home.com

VO4

unique voltage optimisation system

Solar Partner - Antaris Solar

We are proud to announce our partnership with Antaris Solar. Antaris is a German based company which produces solar panels of the highest quality. Antaris has a dedicated research department responsible for quality control and optimising the product range. With it's german expertise, Antaris has produced test winning solar modules that generate a greater yield of electricity as compared to its competitors. Finally, Antaris grants a 30 year performance guarantee and a 12 year product guarantee on its modules. For a link to Antaris Solar visit www.electrocontractors.co.uk

Office Refurbishment

The Electro Contractors office has recently undergone a fantastic refurbishment. The new look office is geared towards getting the word out to customers regarding the services we offer. Work included has been to have new signage, window graphics, pop-up banners, and a billboard to name a few.
